

**CLASS ENVIRONMENTAL ASSESSMENT
NOTICE OF COMPLETION OF CONSULTATION AND DOCUMENTATION REPORT
CATEGORY B**

**Public Work Class Environmental Assessment for the Proposed Ingleside Sewage
Connection Project located at 15020 Long Sault Parkway, Ingleside, Ontario
(1086849-272985)**

WSP on behalf of the St. Lawrence Parks Commission (SLPC), has now completed the Consultation and Documentation (C&D) Report for the proposed Ingleside Sewage Connection Project located at 15020 Long Sault Parkway, Ingleside, Ontario (1086849-272985).

As described in the C&D Report, SLPC is proposing to connect four SLPC sites (McLaren Campground, Woodlands Campground, Woodlands Beach, including the Family Lodge, and Long Sault Trailor Dump Station) to the community of Ingleside water and sanitary municipal infrastructure, known as the Ingleside Sewage Connection Project (1086849-272985). A C&D Report has been prepared to address the works proposed at the four sites.

The properties are generally flat recreational areas, with a gentle southern slope towards the adjacent St. Lawrence River. They are located directly adjacent to the St. Lawrence River and consist of natural landscapes as well as developed lands including parkland, campsites, beach areas and associated infrastructure (e.g. washrooms, trailer dump stations, a lodge, a shower building). While the project will result in significant upgrades to site servicing, the landscape will generally be returned to its current form upon project completion.

This undertaking has been assessed as a Category B, in accordance with the requirements of the Ministry of Infrastructure Public Work Class Environmental Assessment. See Figure 1 for a site location map.

This letter is to inform you that the C&D Report is available for review at the following locations:

- i) SLPC external website: <https://www.parks.on.ca/corporate/ongoing-projects/water-wastewater-municipal-connections-project/ingleside/>

Subject to comments received during the review period and the receipt of necessary approvals, IO intends to proceed with the proposed undertaking.

If no request is received by December 3, 2025 the proposed undertaking will proceed, as outlined in the C&D Report.

This Notice was issued on November 3, 2025.

Comments

Interested persons may provide written comments to our project team by December 3, 2025. All comments and concerns should be sent directly to the undersigned (WSP) for a response within 30 calendar days from the date of this Notice:

Requests to the Ministry of the Environment, Conservation and Parks

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks (MECP) for an order requiring a higher level of study (i.e. requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g. require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should be sent to the contacts below and include the requester's contact information and full name. A copy of the request must also be sent to the WSP contact above.

Requests should specify how it pertains to a constitutionally protected Aboriginal or treaty right, what kind of order is being requested (request for additional conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy those potential adverse impacts, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request.

Minister of the Environment, Conservation and Parks
Ministry of the Environment, Conservation and Parks

Requests should also be copied to the WSP contact above by mail or by e-mail. Please visit MECP's website for more information on request for orders under Section 16 of the *Environmental Assessment Act* at: <https://www.ontario.ca/page/class-environmental-assessments-part-ii-order>.

Freedom of Information

All personal information included in your request – such as name, address, telephone number and property location – is collected under the authority of section 30 of the *Environmental Assessment Act* and is collected and maintained for the purposes of creating a record that is available to the general public. As this information is collected for the purpose of a public record, the protection of personal information provided in the *Freedom of Information and Protection of Privacy Act* does not apply (s.37). Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential.

Thank you for your interest in this undertaking.

Sincerely,

Andrew Rous
